

HELP UNCLE SAM WIN ^T_HE WAR

AND SAVE YOUR MONEY

The Government is asking all the people to meet at their school houses Friday, June 28, to subscribe for War Savings Stamps.

A record will be kept of those who are absent and a reason required for failure to respond to this important and patriotic call.

WAR SAVINGS STAMPS can be bought any time, from now to December 31, 1918. You are not asked to pay your full subscription now or at one time. Pledge yourself for all you think you can possibly pay for from now to next January, and pay as you can. The price of the stamps depends on the month you buy in. During June they will cost \$4.17 and one cent more each month, and January 1, 1923, they will be worth \$5. The more you buy, the more you help and save.

Your money will be earning 4 percent compound interest and no taxes to pay on it, when invested in War Savings Stamps. They are so good that no person can hold more than \$1,000 worth in his own name, but that does not prevent minor children from buying or holding them. You can save through your children if you wish. The following shows the

Cost of War Savings Stamps During June, July and August.

	Cost in June	Cost in July	Cost in August	Worth Jan 1, 1923
1 Stamp.....	\$ 4.17	\$ 4.18	\$ 4.19	\$ 5.00
20 Stamps.....	83.40	83.60	83.80	100.00
50 Stamps.....	208.50	209.00	209.50	250.00
100 Stamps.....	417.00	418.00	419.00	500.00
200 Stamps.....	834.00	836.00	838.00	1,000.00

Remember, buying War Savings Stamps is not giving, it is saving and helping to win the war at the same time. You are backing up our boys "over there" too.

This county is being asked to buy \$201,360 in these stamps between now and January 1, 1919. That is a big lot of money for our people to save in so short a time, but we can do it if we only decide we will. When you buy these stamps you lend and save at the same time.

WAR SAVINGS STAMP COMMITTEE.
